Computer Networking Technology

Learn how to install, optimize, troubleshoot, and secure computer networks. Preparation for Linux, CompTIA Net+, and CompTIA Security+ certification exams. Become a Network Technician or Network Administrator in just 13 months, internship included

Network technicians and administrators are responsible for overseeing, optimizing, and protecting a company's computer network.

Herzing's Computer Networking Technology program delivers cutting-edge training in network administration and technical support. We teach the practical skills you need to get hired, including preparation for valuable networking certification exams.

Program Length: **13 Months (20 hours/week)**
Includes 6 week internship

Program Delivery:
On Campus

CAREER OUTLOOK

Canada has one of the fastest growing IT job markets in the world. Randstad recently named Network Administrator one of the best tech jobs in Canada. Any organization large enough to need a computer network requires skilled technicians to maintain and protect it.
